- Visit wholesale flower markets at 5 AM for best selection and prices
 - Buy white flowers and use natural dyes like turmeric and beetroot for custom colors
 - Rent instead of buying for items you'll only use once, like vintage rugs and furniture

DIY Macramé Magic: Create Instagram-Worthy Backdrops

****Materials Needed (₹2,500 total):**** - 3mm cotton rope (200 meters): ₹1,200 - Wooden dowel (6 feet): ₹300 - Scissors: ₹200 - Measuring tape: ₹150 - Comb for fringing: ₹100 - Command hooks: ₹550 ****Step-by-Step Backdrop Tutorial:**** 1. Cut 40 pieces of rope, each 8 feet long 2. Fold each rope in half and attach to dowel using lark's head knots 3. Create diamond patterns using alternating square knots at 6-inch intervals 4. Add horizontal holding cords every 12 inches for stability 5. Finish with fringe by combing out the bottom

12 inches ****Advanced Techniques:**** For a more elaborate look, incorporate wooden beads (■500 for a pack of 100) or dried flowers woven through the design. Create depth by making three panels of different lengths and layering them. Use this same technique for smaller pieces like table runners or ceremony aisle markers. ****Pro Installation Tips:**** Hang your backdrop 24 hours before the event to allow the rope to settle. Use fishing line for invisible support points. Create ambient lighting by weaving battery-operated fairy lights through the macramé 2 hours before guests arrive.

- Practice knots on a small sample piece first to perfect your technique
 - Soak cotton rope in fabric softener overnight for a silkier appearance
 - Make extra smaller pieces to use as napkin rings or chair decorations
